# Coaching Matters

September

2015 Issue 3

---

## **The Coaching Commission is setting up some new ways to distribute information.**

Firstly, a Facebook Group for NZ registered coaches to ask questions and get clarification and support of rule changes from the Commission Coaches is being trialed. To participate, you will need a Facebook account. Please advise us if you wish to be a part of the NZ Coaches Facebook Discussion Group, and we will add you to the group. You may leave the group at your own discretion any time.

Secondly - we are moving to streamline our email database for newsletters and other email communications. To participate, your email address is required. If you object to having your address included in the email database, please advise the Coaching Commission Administrator.

Lastly, a YouTube Channel has been set up by the HPCC, for the purpose of hosting and distributing relevant video footage. Videos from various coaching seminars, etc may be made available for the registered coaches on NZ to view. This is a restricted channel - available only by direct link. You may be given links from time to time via e-newsletters or the Facebook group to view these videos.

For registered coaches to participate in these initiatives, your email address is required. If you object to having your address included in the group please advise the Coaching Commission Administrator by the end of September.
