GENERAL OBSERVATIONS

In a number of grades over the Area Championships judges have observed many FAIR and BAD executions of the mapes jump. This is particularly noticeable in the younger age grades including Novice. This is the area in which it is essential that this jump is taught correctly. Please talk to the **High Performance Coaching Commission** if you have any queries about teaching the correct technique.

Also at the Northern Area Championships, there were a number of penalties deducted for pumping in spins. This was particularly prevalent once again in the younger grades and Novice grade. In some instances it was clear that skaters were being taught pump camels when they had been unable to master the execution of a clean upright spin. Once again if you have any queries regarding this please contact the **High Performance Coaching Commission**.

Yours in skating
