

TROPHIES STEWARDS REPORT 2017 NZ CHAMPIONSHIP

All trophies were returned in time for events with exception of one (not required this year) and I have asked to be returned to me at the next Central Area meeting.

The only unfortunate problem this year with the trophies was that nobody realised they would go black with the sulphur air. I just hope that those receiving trophies have gone home and cleaned them as asked.

Presentations in general went well. The main delays were usually that the scorers were waiting on Referees to come and sign the results sheets to confirm results. Referees often tended to chat with the judges after an event or they refereed several events in a row.

I would appreciate in future printed list of results of an event as well as the usual results sheets I am given. I try and keep these as a record of the full results of events.

There are a couple of trophies that will need fixing next year. One has incorrect spelling of name (Intermediate CSD) and the other has a broken base (Intermediate Freeskating).

V. Bedford.

Trophy Steward.
