

Rotorua Roller Skating Club report 2017

Rotorua Roller Skating Club is in its 4th year of existence and we have a strong committee and group of skaters and families, We have over 70 active skaters aged from 4 to 18years.

We regularly run skating shows for family, friends and the public which keeps skaters working as a team and the fun element in our club. We are still very much a freestyle, club but our number of show groups is also growing every year.

We are a team focussed club with skaters training and practising together. Having one coach at present has certainly helped with our club development and has enabled us to grow strong basics. It also has meant that we have wanted to future proof our club and are designing great opportunities to train and develop our skaters as future coaches within our club.

At present we teach and train mostly in Lynmore School Gym which is very limited in size, however we are working with Rotorua Lakes Council to look for new larger premises which we hope to secure before the end of the year.

Our club and classes are still growing steadily and our coach David Hook oversees all badge classes to make sure that from the beginning skaters get the opportunity for good basics, this helps to keep new skaters engaged and it also gives our more senior skaters the opportunity to develop their teaching skills.

We are hoping to run Federation medal tests in term four and we continue to run our own advanced medals, certificates, achievements tests and awards that skaters work towards.

We have a great group of parents and a strong committee who have been active in promoting the clubs profile within the community and keep our club running well.
